Get Involved in EOS/ESD Association Working Group Meetings!

Your expertise and participation make a difference! EOS/ESD Association, Inc. Working Group (WG) meetings provide a valuable opportunity to collaborate with industry experts, share technical knowledge, discuss emerging challenges, and help shape the standards that guide electrostatic discharge (ESD) control and device protection across industries. Whether you are an experienced standards contributor or new to the standards development process, your perspective and real-world experience are essential to developing practical, relevant, and effective industry standards.

By participating in WG meetings, you can help identify industry needs, contribute to the development and revision of standards, stay informed about the latest technical advancements, and collaborate with peers who share a commitment to advancing ESD knowledge and technology. **Your involvement helps ensure that our standards reflect the needs of today's industry while preparing for the challenges of tomorrow.** Join us at an upcoming EOS/ESD Association Working Group meeting and be part of the conversation that shapes the future of ESD standards!

General Schedule of Meetings

Monday

Technical and Advisory Support Committee

Tuesday through Saturday AM – days and times TBA

WG 1 (Wrist Straps)
WG 2 (Garments)
WG 3 (Ionization)
WG 4 (Worksurfaces)
WG 5.0 (Device Testing)
JWG HBM (Human Body Model)
JWG CDM (Charged Device Model)
WG 5.4 (Transient Latch-up)
WG 5.5 (Transmission Line Pulse)
WG 7 (Flooring)
WG 9 (Footwear)
WG 11 (Packaging)
WG 12 (Seating)
WG 13 (Hand Tools)
WG 17 (Process Assessment)
WG 20 (ESD Control)
WG 26 (ESD Modeling)
WG 28 (Electrostatic Attraction)
WG 29 (Healthcare)
WG 53 (Compliance Verification)
WG 97 (Footwear/Flooring Systems)
Manufacturing Task Team

Saturday PM

Standards Committee

Board of Directors

Sunday

Special Interest Groups
