

2022 International ESD Workshop (IEW)

15th Annual International Electrostatic Discharge Workshop

May 3-6, 2022

Virtual Event

Taiwan

CALL FOR POSTERS

Now in its 15th year, the IEW continues to provide a relaxed, invigorating atmosphere to present new work and engage in discussions about the latest issues confronting the ESD and EOS communities. The workshop will include a tutorial, invited seminar speakers, discussion groups, invited talk speakers, technical presentation sessions, and special interest groups. The IEW is the perfect opportunity to submit late-breaking and exciting new research to stimulate discussion and interaction around new ideas, encouraging new research topics. To maintain the unique IEW experience and provide ample opportunity for discussion, there will be an increased focus on discussion groups and invited speakers in 2022. The IEW workshop presentation format for technical discussion session among authors and attendees. The IEW is closely aligned with the EOS/ESD Symposium for collaborative conference activities.

Focus Topics: IC Design, Advanced Technologies, Chip-level ESD, System Level ESD, EDA, Failure Analysis and ESD Control

IMPORTANT DATES

December 17, 2021

Abstract Paper Submission Deadline

January 7, 2022

Notification of Acceptance

Submission Guidelines

Submission instructions and an abstract template are available at www.esda.org/iewsubmissions. The submission is in PowerPoint format and is no longer than 6 slides. Submissions are due December 17th, 2021, to www.esda.org/iewsubmissions. There will be no published proceedings of IEW. Walk-on posters are also permitted at IEW with no prior review, but only those works which are submitted for review and acceptance will be included in the five-minute teaser presentation sessions.
