

ESDA Volunteer Newsletter

A Publication of the EOS/ESD Association, Inc.

September 14, 2023

Who are the EOS/ESD Association, Inc. volunteers?

The volunteers of the EOS/ESD Association, Inc. (ESDA) are people just like you; they are BUSY with work, family, hobbies, friends, etc., yet they still commit to us. They range in ages; from 18 years to over 80 years young. They see a value to the work that they do for the ESDA, which ultimately helps you and your career in ESD. How? It helps shape personal and professional growth as well as our organization's growth, which makes lives easier for those who work in electrostatic discharge (ESD). How do we know this? Our volunteers tell us. **Read more!**

What our volunteers do for fun

Our volunteers enjoy hiking, biking, kayaking, skiing, tinkering with pinball machines (What!?!), watching movies, listening to music, spending time with their families, traveling, reading, exploring nature, playing drums, playing ball, playing in a band, walking in the mountains, running, getting to know people, meeting new people, folk dancing, playing bridge (What's that?), exploring the outdoors, boating, relaxing, etc. There is more, but we are running out of room on this page. **Keep reading!**

Reasons why they volunteer for us

Last year, we surveyed our volunteers to find out why they invest in us. They were very honest in their answers. In fact, one of our volunteers said, 'the FREE meals and snacks are a big draw.' Ha Ha, It's true! However, the most popular response is related to the NETWORKING benefits. One volunteer added, 'Networking with other professionals in the field of ESD is what saved me my job.' This person has been volunteering with the ESDA for nearly 30 years!

Featured Volunteers

Volunteer Interests & Opportunities

ESDA Awards

SEPTEMBER FEATURED VOLUNTEERS

TROY ANTHONY

Time as a Volunteer: 7 Years (Since 2016)

Volunteer activities: Standards Committee, Manufacturing Tract Committee Planning, and onsite volunteer work at the ESD Symposium (pre-pandemic).

Why he volunteers: Troy enjoys connecting with other ESD experts & volunteering with the ESDA as well as contributing to and supporting the advancement of EOS/ESD knowledge and standards in a meaningful way.

In his free time: Troy enjoys the great outdoors; hiking, biking, kayaking, skiing – and when indoors, he enjoys tinkering with technology of all sorts, including pinball machines.

JOHN KINEAR

Time as a Volunteer: 33 Years (Since 1990)

Volunteer activities: Standards, Symposium, Education and the Board of Directors

Why he volunteers: While attending meetings and various events such as symposium, the greatest benefit to John is the network of people that he has come to know and rely on for discussions on issues that he has had.

In his free time: John enjoys spending it with his grandchildren.

SHUBHANKAR MARATHE

Time as a Volunteer: 3 Years (Since 2000)

Volunteer activities: While having multiple papers published at the EOS/ESD Symposium, he has contributed to In Compliance magazine via the EOS/ESD Association, Inc., organized EMC special sessions, as well as served in paper review and as a paper mentor.

Why he volunteers: Getting involved with ESDA, provides Marathe an opportunity to be aware of the latest research developments and learn from the experience of other members.

In his free time: Marathe likes to go for hikes on the weekends and explore nature.

ELEANORA GEVINTI

Time as a Volunteer: 12 Years (Since 2011)

Volunteer Activities: ESDA WG18, EOS ESD Symposium Technical Review subcommittees, EOS/ESD Symposium 2012, Chair of the sub-committee titled *Chip/Module/Package EOS/ESD Electronic Design Automation* for EOS/ESD Symposium, TPC Member for IEW 2019

Why she Volunteers: Eleanora said, "I volunteer with ESDA, because its environment has always allowed me to cooperate with the most valuable experts in the ESD field. Moreover, I like very much being an active part of this international community, sharing our expertise, and discovering the newest ESD trends and needs."

TIMOTHY MALONEY

Time as a Volunteer: Since 1984 (39 Years)

Volunteer Activities: EOS/ESD Symposium (including General Chairman), standards, tutorials, workshops, IEW, and publications associated with all of these

Why he Volunteers: Volunteering was synergistic with his job for many years, developing and using skills appropriate for both, and for the last 6+ years he's continued to volunteer, when he sees mutually beneficial opportunities.

In his Free Time: Tim said, "In my free time I enjoy folk dancing, bridge, and exploring the outdoors."

Volunteering makes us happier!

A recent study published in the *Journal of Happiness Studies* found that people who volunteer are happier than those who do not. Every two years from 1996 to 2014, researchers took data from nearly 70,000 research participants about their volunteering habits, mental health, levels of stress, and daily mood. The results? Not only does volunteering makes us happier — it can also improve our mental health over time.

Thank you EOS/ESD Association, Inc. volunteers!

Without our volunteers, we would not have been able to complete SO MANY tasks! The following are few examples of what they helped us accomplish!

Launched Capstone Project with the University of Arkansas

Published White Paper for the new ESD & Latch-up Challenges an Outlook Until 2030

Developed ESD Site Coordinator Certification Curriculum

Hosted complimentary Tech Talks

Launched Compliance Verification Technician to TR53 Certification

SEPTEMBER FEATURED VOLUNTEERS

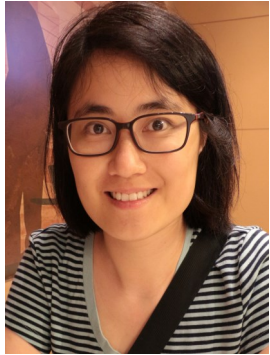

DAVID POMMERENKE

Time as a Volunteer: 28 years (Since 1995)

Volunteer Activities: Standards, Conference, Reviewer, TPC with different activity levels

Why He Volunteers: David appreciates the technical exchange, plus “ESDA is a fun group,” he says.

In His Free Time: David enjoys Ham Radio, Table Tennis, & Soccer.

RITA FUNG

Time as a Volunteer: 4 Years (Since 2019)

Volunteer activities: TPC of EOS/ESD Symposium Manufacturing Track

Why she volunteers: Rita enjoys connecting with industry and ESD experts for new project collaboration.

In her free time: Rita likes movies, music and hiking.

VLADIMIR KRAZ

Time as a Volunteer: 24 Years (Since 1999)

Volunteer activities: Standards, Occasional Papers and Workshops, Both Domestically and Internationally at ESDA-organized events

Why he volunteers: Vladimir says, ‘If you don’t participate in Standards, someone else will do it for you, and you might not be happy.’

In his free time: Vladimir enjoys traveling and reading.

TIMOTHY JARRETT

Time as a Volunteer: 35 Years (Since 1988)

Volunteer Activities: Standards working group member 20+ years, Standards Working Group Chair (WG53)

Standards Chairman – 2006-2008, Symposium steering committee member (opening day September 11, 2001), Elected Board Member - 2 terms

Why he Volunteers: Tim said, ‘I like to benchmark with other organizations.’

In his Free Time: Tim likes to play drums with his band.

BERNARD CHIN

Time as a Volunteer: 9 Years (Since 2014)

Volunteer Activities: Standards WG, conference committee (manufacturing track), conference panel member, ESD course facilitator (ESD Essentials) and ESD course designer (for ESD Factory Basics for Design Engineers)

Why he volunteers: Bernard said, “I volunteer with the ESDA as it allows me to interact with other like-minded ESD professionals to learn from them, and also to share my experiences to better enhance ESD controls and practices.”

We recognize & honor our volunteers, too!

EOS/ESD Association, Inc. has been granting awards for more than 35 years by recognizing those who have contributed to excellence in service and outstanding technical achievements in the fields of ESD applications and designs. These recipients include both individuals who have made significant impact to the industry and to EOS/ESD Association, Inc., and, in some cases, corporate organizations that have supported their employees' extensive volunteer participation. The awards are meant to not only recognize highly deserving individuals, but also to inspire others. Organization awards signify the value EOS/ESD Association, Inc. places on the important and critical work of all of our volunteers, recognizing excellence and teamwork.

It looks good on your resume and may impress your employer!

SEPTEMBER FEATURED VOLUNTEERS

GREGORY O'SULLIVAN

Time as a Volunteer: 8 Years (Since 2015)

Why He Volunteers: Greg said, "I volunteer with the ESDA in part because I enjoy working with other ESD test subject matter experts in my field, and find I learn a lot from the collaborative spirit that is part of the HBM, CDM and Latch-up working groups."

In His Free Time: He enjoys spending time in the outdoors, including time spent hiking, sailing, visiting natural hot springs, riding bike, and spending time with family.

TOM MEUSE

Time as a Volunteer: 30+ Years (Since the 90's)

Volunteer Activities: Standards Committees, Device Level Test Standards, Chairperson for an original TLU Work Group and currently Chair of Work Group 14, System Level ESD and on device level working groups, and ESDA Board of Directors

Why he Volunteers: Being an ESDA volunteer has allowed Tom to expand his knowledge on EOS and ESD topics, It has allowed him to meet industry experts, new ESD engineers and also expanded his reach within the EOS/ESD community.

In his Free Time: Tom enjoys spending time with family and friends, boating and relaxing on Lake Winnepesaukee in New Hampshire during the summer months and winter activities during the snowy winters.

As a volunteer, my job is to tell people where to go. I was born for this.

Start where you are. Use what you have. Do what you can. . ~ Arthur Ashe
