Annexes	
Annex A (Informative): ESD Protective Packaging Material Guidance	9
Annex B (Informative): Device Damage	11
Annex C (Informative): Limitations for the Use of Static Decay Testing Method	12
Annex D (Informative): ESD Protective Packaging and Material Types	13
Annex E (Informative): Guidance for Determining Electrostatic Discharge Shielding Properties	16
Annex F (Informative): Guidance Regarding Electric Field Shielding	17
Annex G (informative): Guidance Regarding the Low Charging Property	18
Annex H (Informative): Related Documents.....	19
Annex I (Informative): Revision History for ANSI/ESD S541	20
