
TABLE OF CONTENTS

1.0 PURPOSE AND SCOPE.....	1
1.1 PURPOSE	1
1.2 SCOPE	1
1.3 HOW TO BEST USE THIS DOCUMENT	1
2.0 REFERENCED PUBLICATIONS.....	1
3.0 DEFINITIONS.....	1
4.0 PERSONNEL SAFETY	2
5.0 BASICS OF ELECTROSTATICS AND PARTICLE BEHAVIOR	3
5.1 INTRODUCTION	3
5.2 ELECTROMAGNETISM	3
5.3 SOURCES OF ELECTROSTATIC CHARGE	4
5.4 TRIBOELECTRIC CHARGE GENERATION.....	4
5.5 MEASURING ELECTROSTATIC FIELDS	6
5.6 INFLUENCE OF ELECTROSTATIC FIELDS IN AN ENVIRONMENT	7
5.7 MATERIAL PROPERTIES – INSULATORS VERSUS CONDUCTORS	7
5.8 AIR IONIZATION AS A CONTROL	8
5.8.1 <i>Room Ionization</i>	8
5.8.2 <i>Overhead Ionization</i>	9
5.8.3 <i>Benchtop Ionization</i>	9
5.8.4 <i>Inside Equipment Mini-Environments</i>	10
5.8.5 <i>Handheld Ionization</i>	11
5.8.6 <i>Compressed Gas (In-Line) Ionization</i>	11
5.8.7 <i>In-Tool Blower Ionization</i>	11
5.9 PARTICLES	12
5.9.1 <i>Particle Size, Shape, and Density</i>	12
5.9.2 <i>Particle Settling Rates</i>	12
5.9.3 <i>Transportation of Particles in an Electric Field</i>	13
5.9.4 <i>Particle Adhesion</i>	13
5.9.5 <i>Particle Removal</i>	14
6.0 CLEANROOMS.....	16
6.1 CLEANROOM BASICS.....	16
6.2 ISO CLEANROOM CLASSIFICATIONS.....	16
6.3 ACCUMULATION OF CONTAMINATION IN ENCLOSED TOOLS.....	18
6.4 IMPACT OF ESA IN CLEANROOMS IN VARIOUS INDUSTRIES.....	19
6.5 CONTAMINATION REMOVAL PRIOR TO ENTERING CLEANROOMS	19
6.5.1 <i>Garment Change Rooms</i>	19
6.5.2 <i>Product Transfer Rooms/Airlocks</i>	20

7.0	ESA IN MEDICAL DEVICE/LIFE SCIENCE MANUFACTURING.....	21
7.1	BACKGROUND AND OVERVIEW OF THE INDUSTRY	21
7.2	EVALUATION AND SOLVING ESA CONTAMINATION PROBLEMS.....	22
7.3	FACILITY ASSESSMENTS FOR ESA.....	23
7.4	ESA SURVEY MEASUREMENT TECHNIQUES	24
7.4.1	<i>Electrostatic Field Measurements</i>	24
7.4.2	<i>Grounding and Bonding Measurements</i>	24
7.4.3	<i>Ionization Measurements</i>	24
7.5	COMMON SUCCESSFUL SOLUTIONS USED IN THE INDUSTRY	24
7.6	MANUFACTURING PROCESSES.....	24
8.0	ESA IN AVIATION, AEROSPACE, AND MILITARY MANUFACTURING	25
8.1	FOD BACKGROUND IN AVIATION, AEROSPACE, AND DEFENSE FOD CONTROLS	25
8.2	ESA FACILITY ASSESSMENTS IN AVIATION, AEROSPACE, AND DEFENSE INDUSTRIES	26
8.3	ESA SURVEY MEASUREMENT TECHNIQUES	27
8.3.1	<i>Electrostatic Field Measurements</i>	27
8.3.2	<i>Grounding and Bonding Measurements</i>	27
8.3.3	<i>Ionization Measurements</i>	27
8.4	ESA MITIGATIONS IN AVIATION, AEROSPACE, AND DEFENSE INDUSTRIES	27
8.5	ESD CONTROL PLAN AND FOD MITIGATION DEFICIENCIES.....	28
9.0	ESA IN FIBER OPTICS	29
9.1	ESA BACKGROUND IN FIBER OPTICS.....	29
9.2	ESA FACILITY ASSESSMENTS FOR FIBER OPTICS.....	30
9.3	ESA MITIGATION IN FIBER OPTIC INDUSTRIES	31
9.4	PROCEDURES FOR MEASURING ELECTRIC FIELDS/CHARGE LEVELS	31
10.0	ESA IN SEMICONDUCTOR WAFER MANUFACTURING	32
10.1	ESA BACKGROUND, EVALUATION, AND CONTROL IN WAFER MANUFACTURING	32
10.2	PHOTOMASK AND THE PHOTOLITHOGRAPHY PROCESS.....	33
10.3	ESA FACILITY ASSESSMENTS FOR WAFER FABRICATION FACILITIES.....	33
10.4	ESA MITIGATIONS IN SEMICONDUCTOR MANUFACTURING	33
10.4.1	<i>Grounding</i>	34
10.4.2	<i>Air and Gas Ionization</i>	34
11.0	ESA IN GENERAL MANUFACTURING OPERATIONS	35
11.1	BACKGROUND AND OVERVIEW OF THE INDUSTRY.....	35
11.2	CONDITIONS THAT COULD INFLUENCE ESA IN MANUFACTURING	35
11.3	FACILITY ASSESSMENTS FOR ESA	36
11.4	ESA SURVEY MEASUREMENT TECHNIQUES.....	37
11.4.1	<i>Electrostatic Field Measurements</i>	37
11.4.2	<i>Grounding and Bonding Measurements</i>	37
11.4.3	<i>Ionization Measurements</i>	37
11.5	ESA MITIGATIONS.....	37
11.5.1	<i>Grounding All Conductive and Dissipative Materials</i>	38

Annexes

Annex A (Informative) – Bibliography	39
Annex B (Informative) – Revision History for ESD TR28.0-01	41

Tables

Table 1: Examples of Typical Static Generation Voltage Levels.....	6
Table 2: Maximum Number of Particles in Air by ISO Class of Cleanroom	17
Table 3: Typical Cleanroom Controls Used in Cleanrooms of Various Classifications	18
