CONTENTS

FOREWORD 4
INTRODUCTION 6
1 Scope 7
2 Normative references 7
3 Terms and definitions 7
4 Testing levels and performance limits 9
5 Test methods 10
5.1 Test method applications 10
5.2 Wrist strap continuity and resistance test 10
5.2.1 Purpose of test 10
5.2.2 Equipment and test samples 10
5.2.3 Procedure 12
5.2.4 Reporting 12
5.3 Wristband resistance test 12
5.3.1 Purpose of test 12
5.3.2 Equipment and test samples 12
5.3.3 Procedure (interior resistance) 12
5.3.4 Procedure (exterior resistance) 12
5.3.5 Reporting 12
5.4 Wristband size requirements 13
5.4.1 Purpose of test 13
5.4.2 Equipment 13
5.4.3 Self-adjusting wristbands 13
5.4.4 "One-size-fits-all" wristbands 13
5.5 Breakaway force 13
5.5.1 Purpose of test 13
5.5.2 Equipment 13
5.5.3 Breakaway force measurement 13
5.5.4 Reporting 14
5.6 Connection integrity 14
5.6.1 Purpose of test 14
5.6.2 Equipment 14
5.6.3 Procedure 14
5.6.4 Reporting 15
5.7 Ground cord extendibility 15
5.7.1 Purpose of test 15
5.7.2 Ground cord extendibility procedure 15
5.7.3 Reporting 15
5.8 Bending life test 15
5.8.1 Purpose of test 15
5.8.2 Equipment 15
5.8.3 Procedure 16
5.8.4 Reporting 17
5.9 Manufacturer's identification 17
5.10 Identification of current-limiting resistance 17
5.11 Wrist strap resistance 17

5.11.1 Purpose of test 17
5.11.2 Equipment 17
5.11.3 Procedure 17
5.11.4 Reporting 17
5.12 Wrist strap system continuity test 17
5.12.1 Purpose of test 17
5.12.2 Equipment 18
5.12.3 Procedure with ohmmeter 19
5.12.4 Procedure with integrated checker 20
5.12.5 Reporting 20
