

# 2023 International ESD Workshop (IEW) – In Person Event

16th Annual International Electrostatic Discharge Workshop

May 8-12, 2023

Evangelische Akademie

Tutzing, Germany

## CALL FOR POSTERS

Now in its 16th year, the IEW continues to provide a relaxed, invigorating atmosphere to present new work and engage in discussions about the latest issues confronting the ESD and EOS communities. The workshop will include a tutorial, invited seminar speakers, discussion groups, invited talk speakers, technical presentation sessions, and special interest groups. The IEW is the perfect opportunity to submit late-breaking and exciting new research to stimulate discussion and interaction around new ideas, encouraging new research topics. To maintain the unique IEW experience and provide ample opportunity for discussion, there will be an increased focus on discussion groups and invited speakers in 2023. The IEW workshop presentation format for technical sessions will begin with each author presenting a brief summary to highlight key findings, followed by an interactive poster-based discussion session among authors and attendees. The IEW is closely aligned with the EOS/ESD Symposium for collaborative conference activities.
